

What is Bayside Hub: everything app all in one

Bayside-Hub is a centralized High School Activities & Club Management Platform designed to bring all student-life information into one modern, easy-to-use system.

It's built using Next.js, React, and Supabase, which means it's fast, secure, and supports real-time updates.

Bayside-Hub solves a common school problem:

Information about clubs, events, and student activities is scattered across emails, posters, and announcements...

This platform brings everything together so students, teachers, and administrators can access it in one place.

Page:

- Home
 - Sign in
 - Short overview of the Bayside Hub page
- Announcements
 - Updated daily by SO office (has daily version history: shows past announcement)
- Activities & Club 101
 - Info required: Club/Team dates, google classroom codes/contact info, short description, board member & advisor
 - Every club has its own page with officers, meeting times, announcements, and media
 - Club 101: quiz for unsure students (e.g. Incoming freshman) to find their preferred clubs
 - Filter between Clubs:
 - Dates
 - Interests
 - Community service
 - STEM (Science, Technology, Engineering, and Mathematics)
- Calendar
 - Events (Multi, Carnival, K-fest, sports, etc.)
 - Club Dates (Mon, Tue...)
- Opportunities
 - Election positions
 - Community Services
 - Internship (SYEP...)
 - Pre-College (CUNY College Now...)
 - Bayside discounts (for BHS only? Student discounts)

Why this is important for school:

Improves communication between students, advisors, and administration

Boosts club participation by making it easier to discover activities

Reduces administrative overhead for tracking clubs and events

Modernizes student-life management with a clean, digital hub

Supports transparency with clear, organized information for all stakeholders
